St Albans Heights Primary School

Principal Mrs Effie Sultana
9366 4211

Our students receive highly effective instruction, in every classroom, every single day.

We cater to all learning needs through high ability learning programs and intervention support.

We empower our students to think critically.

Every child's health and wellbeing is supported by the school and our community.

We engage our students with high quality teaching, integrated with technology, in every classroom.

We offer:

- OHSC
- Breakfast Club
- Music Lessons
- STEM
- Japanese
- Kitchen Garden Program

St Albans students soar to greater educational heights

St Albans Heights Primary School principal Effie Sultana leads the school with a strong leadership team, effective classroom teachers and support staff that cater for students with differing needs.

Established in 1968 in the City of Brimbank, the school's staff strive to provide a structured, supportive and motivating educational environment where every child is challenged and nurtured to reach goals that will meet their needs.

"Our vision is that graduates will be empowered to thrive, collaborate and think critically," Ms Sultana said.

"They will be supported by the school community and will be at the centre of all decision-making. All students will be provided with highly effective instruction, in every classroom, every day."

"They will have sound literacy and numeracy skills and an inquiring mindset to create opportunities to live successful lives.

"They will develop positive social and emotional capabilities and a strong moral compass in order to effectively contribute to society."

The school offers specialist subjects including STEM, PE, visual arts, and Japanese, as well as offering EAL, Language Support, Levelled Literacy Intervention and a library program to support the literacy curriculum.

The school is organised into single classes for foundation and composite classes for years 1/2, 3/4 and 5/6.

With a focus on quality teaching and learning, all staff are dedicated to developing each child to their full potential. Ms Sultana said a strong emphasis is placed on a programs. The school staff work in team teaching situations with two classes effectively working together.

Data and evidence is key to driving school improvement, which is a shared vision of the school and parent community.

The variety of programs and partnerships available at St Albans Heights Primary School helps students to thrive. (Supplied)
