SWEET EXPANSION INTO FRANKIES

BY ELLE CECIL

THE ever popular Branded Burgers in Seville is expanding to provide new and delicious products. Set to open on December 8, Frankies @ 662 is a new juice and smoothie bar, serving hot dogs, country fried chicken, soft serve ice cream, cold brew coffee, milkshakes, hot chips and much more.

Driven by a good old fashioned challenge, the team at Frankies and Branded Burgers decided that the Seville community needed a little something extra to tantalise the taste buds.

With their greatest achievement at Branded Burgers so far being that they survived two consecutive years of COVID-related lockdowns and restrictions, owners Amanda Pearse and Gina Braidner are thrilled to be expanding their reach within the Seville community.

"We have always been community-minded and hold locals at the forefront of our decisions and activities," says Gina.

With Branded Burgers having been established for close to five years now, and holding a prestigious four out of five stars on Google reviews, it is no surprise that the popularity of Branded Burgers has allowed Amanda and Gina to expand their business.

"We provide a welcoming and friendly environment for everybody while producing quality food and drinks, sourced locally where possible," says Amanda.

With accommodating, friendly staff and a welcoming, comfortable atmosphere, Branded Burgers and Frankies @ 662 is bound to be a hit with all members of the family, from little ones to mums and dads, as well as teenagers to grandparents.

"We are locals, employing locals, using locally grown and sourced products. Frankies @ 662 plans to be young, vibrant and a whole lot of fun!"

Amanda and Gina are excited to be opening their new hot doggery and juice bar.

Frankies is located at 662 Warburton Highway, Seville, telephone 5964 2510.
