Equipped for fulfilling life at MacKillop College

MacKillop College is committed to providing the tools and resources each student needs to ensure their secondary education is the most fulfilling experience possible.

In honour of this, the college offers strong academic pathways, as well as a diverse range of clubs and programs, to support student interests and help develop crucial hard and soft skills.

From an academic perspective, MacKillop College works to build students' educational journey, providing them with choice and structure to find the pathway best suited to them. One such option includes accelerated learning, which assists students who seek higher education.

Another is the provision of a specialist program (supporting the new Vocational Major in VCE) for students who prefer applied learning. For students who would like to seek opportunities to develop their performance ability, the college hosts regular music, dance and theatre productions, where family and friends can attend to support and appreciate their hard work.

Everything from artworks to leadership skills are introduced and developed within the curriculum and MacKillop's state-of-the-art facilities.

Being strong advocates of learning not being limited to the classroom, students also have access to a variety of extracurricular opportunities, including sports, eSports, Outdoor Education, animal husbandry, coding and debating.

For year 9 students, a secondary campus has been specifically designed to support students as they learn to connect with their peers, significant others, the community, the environment and themselves. Students also have equal opportunity to participate in camps and excursions at intra and interstate levels, as well as expanding their cultural boundaries and understanding within our international program.

MacKillop College approaches all learning through the lens of inclusivity, offering career and personal guidance for those who require support in their journey. The college strives to provide students with a robust support system for social-emotional learning to ensure the prioritisation of their wellbeing.

MacKillop's vision statement is 'celebrating all life, challenging all people, dreaming the new day,' and MacKillop College holds firm to the notion that to support the self is to support the whole.

For more information, contact the college registrar on (03) 8734 5200.

MacKillop College strongly advocates for learning both inside and outside of the classroom, in sports, the arts, debating, animal husbandry and coding. (Supplied)
