Jumping for joy at Hoppers Crossing Secondary College

Hoppers Crossing Secondary College principal Keith Halge is extremely proud of the achievements of the college's students, particularly over the last few years during remote learning.

With the support of college staff and the wider school community, Hoppers Crossing Secondary students have successfully pivoted between face-to-face teaching and very structured remote learning environments while maintaining some strong academic results.

NAPLAN data over the last five years has seen the school's students achieve learning growth at a faster rate than the state average in Reading, Numeracy, Spelling and Language Conventions. From a VCE perspective, the college celebrated a 99 per cent pass rate and had nine per cent of students achieve an ATAR in the 90s. The average ATAR was 63 and all 2021 graduates moved to a positive pathway, the majority undertaking a university degree.

A unique school feature is the college's School Improvement Policy, where students in years 7-10 receive feedback on their work and can redo assessments to hopefully demonstrate a better understanding of concepts. The college believes in a 'growth mindset' and continually encourages and supports its students to persevere in their learning.

The school community has very positive feelings about the college with 2021 survey data indicating it was above the 'state average', the 'Wyndham network of schools', and 'like schools' in every indicator.

This year, Hoppers Crossing Secondary College eagerly awaits construction on its new gymnasium and performing arts complex, new literacy centre and the refurbishment of the site's existing science labs and food technology classrooms.

The Hoppers Crossing Secondary College community is eagerly awaiting the construction and refurbishment of buildings at the school, including an upgrade to the science and food tech classrooms. (Supplied)

Hoppers Crossing Secondary College is located at 2 Fraser Street, Hoppers Crossing.
