Students pay tribute to tireless healthcare workers

Students at The Kilmore International School embrace an ever-changing world with confidence, engage others with a positive, loving attitude, are grounded in community, and are prepared to act when needed.

The ongoing, gracious effort of healthcare workers has prompted the Student Representative Council to co-ordinate a donation drive and prepare HealthCARE Hampers for staff at the Kilmore District Hospital.

The hampers were accompanied with heartfelt cards and letters students penned themselves, expressing their gratitude to the 'givers' of care.

Further acknowledging its social responsibility, the school partnered with the Nexus Primary Health Wallan to operate a school-based vaccine clinic in an effort to support vaccination targets for students and staff. The clinic proved a success, with appointments booked to capacity.

To learn more about how The Kilmore International School cares for the individual and offers experiences for growth, potential families are invited to attend a virtual school tour and information session.

Enrolment applications remain open for The Kilmore International School, with applications accepted for 2022-2023 for students from year 3 to year 12.

Further information about virtual school tours, curriculum delivery and enrolments can be found on the school website: www.kilmore.vic.edu.au.
