They take care at Kar Air

By Elle Cecil

Servicing the Ferntree Gully and surrounding areas for 33 years, Kar Air Automotive Air Conditioning and Transport Refrigeration will keep you, your family and your business cool this summer. Providing servicing, repairs and installation for cars, animal transport vehicles, people movers, trucks and heavy equipment, Kar Air also specialises in transport refrigeration in food and medical trucks and vans, ranging from 4 degrees celsius to -25 degrees celsius.

With the weather heating up and lockdown lifting, Kar Air is gearing up for a very busy summer. Now is the perfect time to book in and get your vehicle's air conditioning serviced before the rush to make sure you stay cool, calm and collected.

As vehicles get older, the air conditioning requires more regular servicing outside of your normal motor vehicle service. Aging hoses, seals and compressors will lose gas over time, with Kar Air recommending a service or regas every two years for cars less than 10 years old, and every year for cars older than 10 years.

Fuelled by his passion for helping those in his community, Kar Air owner Andrew Robertson is a people person, with a great love for his staff and customers.

"Being the best I can be in my private and business life is what drives me, as well as my good friends and the ability to help others," says owner Andrew Robertson.

"I have been a CFA volunteer for over 20 years and that gives me great satisfaction, even though it makes me extremely busy during the summer season."

The Kar Air team is made up of Andrew, Paul, Ben, Michelle and apprentice Alex. The combined knowledge and expertise of the staff will ensure that your servicing is up to date and up to scratch at a competitive price. Free quotes and advice are readily available at Kar Air.

A service/regas will cost $165 for most cars, including a degas and regas to the correct level, check of filters, belts and hoses, leak detection inspection and six month warranty on gas loss.

Kar Air is located at 2 William Street, Ferntree Gully. For more information, visit www.karair.com.au or phone 9752 4122. Opening hours: Monday to Friday - 8am to 5pm, Saturday - 9 to 12noon. Bookings are essential during peak season.

Nobody knows car air like Kar Air - Michelle, Andrew and the team will take care of you.
