Chiropractor Vicky with patient Kylie. 254654

DCT Chiropractic will have you feeling your best in no time. 254654

Get cracking with DCT

By Elle Cecil

Following its opening in Emerald in 2019, DCT Chiropractic has been providing top quality therapeutic techniques to the region, helping residents to address musculoskeletal conditions such as neck pain, back pain, headaches and posture-related aches and pains.

Owner and chiropractor, Dr Vicky Zarzu, has been in the health industry for 10 years, starting out as a chiropractic assistant and then practicing in multiple locations as an associate and locum chiropractor.

"My passion for health and chiropractics began when my family and I experienced first-hand the life changing benefits of chiropractic care," Dr Zarzu says.

"This inspired me to create a welcoming space in Emerald where the families in our beautiful hills community can feel supported on their journey to living a happy, healthy and pain-free life."

With highly trained and experienced staff, DCT Chiropractic's practitioners are proficient in a variety of traditional and more gentle chiropractic techniques.

"Our greatest achievement is the close-knit community we have built at DCT Chiropractic. Our core staff, support team and clients all play a vital role in the relaxed, fun and caring atmosphere at the clinic."

On your first visit to DCT Chiropractic, you can expect your practitioner to ask lots of questions to get a comprehensive picture of your overall health, the history of your condition, and your current symptoms.

This is followed by a thorough examination of your posture, overall movement and spinal function. The history and examination help your practitioner determine the best treatment approach for you. DCT Chiropractic treats its clients as individuals, because they know no two people are the same, so they provide each client with an individually tailored management plan.

DCT Chiropractic is located at 394 Belgrave-Gembrook Road, Emerald. For more information, phone (03) 5968 2153 or visit www.dctchiropractic.com.au.
