Bathroom renos solved with Your Solution

Your Solution is a family-owned and operated business that opened in Sunbury in July.

Specialising in bathroom, kitchen and laundry fixtures and fittings, designs and installations, visit the showroom at the new warehouse complex in McDougall Road and meet the team to discuss your new build or renovation project.

Team members Andre Delgadillo and Karen Sadler have an extensive history working in the building and construction industry.

They decided to use that knowledge to help home renovators, the aged and disability communities, as well as local builders and tradies with new and innovative products supported by a positive customer service experience.

Your Solution is the Victorian distributor for Windsor Baths, Australia's leading vendor of high-quality walk-in baths.

Walk-in baths enable the elderly, disabled, or injured to remain in their home for longer and improve their independence by creating a safe space, including for their carer, to shower and bathe. Fully NDIS approved, two models are on display, while one is a working model.

A vertical towel warmer to fit small spaces? Not a problem. The Gordon is only 208mm wide and can hold up to four towels, with the option to add a timer to set and forget. It dries towels three times quicker than a traditional ladder, thus reducing power consumption. Designed and manufactured in Europe to the highest quality, it comes in four colours, with a special anti-slip coating ensuring towels remain in place.

A new LED mirror or mirror cabinet from Remer has the largest demister pad on the market, so don't be fooled by other brands. Choose a frame to match your tapware from an extensive range of shapes and styles, and you will undoubtedly be impressed.
