The team at Creative Dental Haus will make your visit to the dentist comfortable and welcoming, and the state of the art facilities will set your mind at ease for the duration of your treatment. (Supplied)

Spreading satisfied smiles at Creative Dental Haus

Having worked as a dentist in the Geelong area since 2009, Geelong west resident, Dr Andrew James, opened an exciting new dental practice in late February this year.

Creative Dental Haus offers all aspects of dentistry including check up and clean, children's dentistry, root canal treatment, dental emergencies, dental hygiene and gum disease treatment, wisdom tooth removal, tooth extractions, sports mouthguards, tooth coloured fillings, SomnoMed sleep apnea devices and teeth grinding and clenching treatments.

The practice also offers cosmetic dentistry including composite veneers and bonding, digital dentistry, gum lifting and gummy smile treatments, partial and full dentures, porcelain veneers, crowns, dental implants, in-chair Philips ZOOM! teeth whitening, take home whitening kits and overall smile makeovers.

Driven by the need to provide genuine family dentist services to the Geelong region, Dr James has created a practice that doesn't feel like a dental clinic – it is warm, homely and welcoming.

"I enjoy getting to know my patients and understand that a visit to the dentist can be daunting," says Dr James.

"Our approach is calm, gentle and pain-free … we use state-of-the-art equipment ensuring our patients receive the most comfortable dental experience."

The ambience of a day spa is almost tangible in the practice, with the brand new modern clinic playing around-the-clock calming music to minimise noise from dental equipment, coffee facilities for patients and guests, beautiful greenery and comfy couches in the waiting room, and art lining the walls.

Convenient parking and accessible facilities mean that patients are able to easily navigate their way in and out of the clinic.

In the treatment rooms, there are televisions in the ceiling to engage patients' attention from the services they receive, with a wide range of shows available to stream in the chair. All kids receiving treatment will receive balloons and gift bags to positively reinforce their dentist experience.

Providing affordable and comprehensive dental services in a family-friendly environment, Creative Dental Haus knows that all patients are unique so treatment is tailored and personalised.

"We are proud of the work we do to achieve the best outcome for every single patient," Dr James says.

Creative Dental Haus is located at Shop 3/96 Pakington Street, Geelong West. For more information, visit www.creativedentalhaus.com.au or phone (03) 5222 6656.
