Sponsored by EML Mutual since 1910

Medium to Large Business or Division/Department of a Business Award
Winner: CUSTOM NEON

Custom Neon grew from humble beginnings in the garage of owners Jess and Jake Munday. From 2018 to 2021, the business has seen astronomical success through partnering with e-commerce veterans Teresha and Matt Aird to launch into new markets using innovative technology and processes.

Following a rebrand in 2020, Custom Neon has taken the world by storm with sales in the United States and United Kingdom surpassing that of sales in Australia. With 14 Geelong-based employees at Custom Neon's local headquarters, the team is supported by an additional 18 international employees.

In both business-to-consumer and business-to-business arenas, Custom Neon thoroughly impressed the judges through the use of e-commerce capabilities as well as the establishment of international manufacturing sites in Los Angeles and Shanghai.

Most important to the judges was the excitement, passion and pride exhibited by Custom Neon though its written submissions and presentations to the panel. The strategic use of government funding and action in sustainable business practices is admirable said the judges.

The judges also noted that progression to bigger and better headquarters in 2022 is a credit to the business and the implementation of a youthful and conscious approach to sustainability and staff engagement is admirable.

VACC Accredited Automotive Repairer

DRIVE SAFE SERVICE CENTRE PTY LTD
AUTOMOTIVE MECHANICAL AND ELECTRICAL REPAIRS
