Bright future for Geelong Refinery

Geelong Refinery has been a key part of the local manufacturing industry for nearly 70 years. Since Viva Energy took over the refinery in 2014, it has continued to invest in this critical infrastructure that employs 700 people and supplies around 50% of Victoria's liquid fuel needs.

2021 has continued to be a challenging but also an exciting year for the refinery. In May the federal government announced details of the Fuel Support Package that will help support the future of the refinery, involving investment in cleaner fuels to produce Ultra Low Sulphur Gasoline and the construction of three new diesel storage tanks that will contribute to Australia's fuel security.

Viva Energy is also progressing with plans for an energy hub, part of its vision for Geelong Refinery to become a diversified energy supplier with an ongoing role in meeting the country's energy security needs.

These projects are all good news for Geelong, providing jobs, investment, new skills and a bright future for manufacturing in this great city. As a company, Viva Energy is committed to building strong relationships and making a positive difference in local communities across its national footprint.

In Geelong, the refinery supports Northern Futures as well as many local sporting clubs. Through the company's Double My Donation and Team Fundraising programs, Viva Energy staff are able to contribute to community groups in Geelong and the surrounding region, which the company matches.

As a company with a long history of continuous improvement and innovation, Viva Energy has sponsored the Innovation, Research and Development category of the Geelong Business Excellence Awards for several years.

The refinery remains a proud supporter of local businesses and is proud to sponsor the award that provides recognition to Geelong's visionaries, pioneers and trailblazers.

TO THE VISIONARIES, PIONEERS AND TRAILBLAZERS

As a local manufacturing company committed to continuous improvement and innovation, Viva Energy is delighted to sponsor the Geelong Business Excellence Awards Innovation, Research and Development category.

During a year where so many businesses were devastated by the COVID pandemic, innovation has never been more important.

Our refinery remains a proud supporter of local businesses and we are pleased to be able to provide this support and recognition to Geelong's visionaries, pioneers and trailblazers.

Congratulations to all winners and finalists. vivaenergy.com.au
